Claims 10-18 are objected to under 37 CFR 1.75 as being a substantial duplicate of claims 2-9 respectively; ie., for example, if claim 2 is rewritten in independent form it is identical to claim 10, etc. etc,. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Claims 1-9 are allowed.

Claims 19-22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Analogous spreading tools are taught by DuVal, Klatt, and Swenson.
